A Postcard View of Hell

One Doughboy's Souvenir Album of the First World War

SERIES IN CRITICAL MEDIA STUDIES

Summary

For many the postcard may seem trivial, little more than a mundane souvenir or a way to keep in touch with friends and relatives while on vacation. But if we look carefully, postcards offer valuable insights into the time periods in which they were created and the mentalities of those who bought or sent them. Frank Marhefka, while serving in the U.S. Army Motor Transportation Corps during the First World War, amassed a collection of more than 150 postcards and photographs while in France, and bound them into a souvenir album. Marhefka's collection provides a diverse and vivid look into a period of history that – in many soldiers' accounts – is not usually visualized with all its cruelties. Emphasizing the pictorial turn of the Great War, this album offers personal insight into a conflict that caused so much death and destruction. The book begins with an introduction providing a history of postcards and their extensive use by soldiers during the Great War. Then, after a biography of Marhefka, his postcard collection is presented in its entirety. Accompanying the images are brief texts that place them into historical context, as well as suggestions for further reading.
